Between 1400 and 1600 on 23 October 1954, the Flak Kaserne in Kagran was guarded by sentries who wore red-bordered black epaulets. The following motor vehicles and artillery pieces were parked in the area of the camp and arranged in the same way as prior to the departure of the troops apparently for the troop training grounds:

- 8 medium AA guns
- 6 x 37-mm AA guns
- 1 ambulance
- 32 trucks
- 5 van-like trucks
- 1 van-like trailer with a dipole support with 6 vertical dipoles
- 1 van-like trailer mounting 2 metal devices similar to parabolic reflectors about 1 meters in diameter
- 1 two-wheel generator.

3 trucks which had previously been observed were either Canadian Ford or Bedford type trucks. Weapon-carriers were not observed in the AA area. No soldiers were seen near the weapons and vehicles.
